📁 PROJECTS

Tepnot Admin Panel 2024

- Contributed to **Tepnot Application** (Social Media App available on Play Store) and its **Admin Panel**.
- Built interactive UI screens, forms, and dashboards using React.js.
- Integrated REST APIs and improved application usability.
- Ensured consistent UI/UX across mobile and web platforms.

Pikabox: Cloud Space & Live TV Admin Panel

- Developed and maintained the **Pikabox Admin Panel** with a clean and scalable React.js architecture.
- Implemented **user management, content controls, and dashboard analytics** for smooth app administration.
- Integrated APIs for **Live TV channels, cloud storage features, and content updates** with optimized performance.

- Improved overall **UI/UX and workflow efficiency**, ensuring fast loading and easy control for administrators.

Frontend Web Developer with 1.5 years of experience specializing in React.js, modern UI frameworks, and API integration. Skilled in building responsive, high-performance web applications with clean architecture and reusable components. Proven ability to collaborate effectively with teams and deliver user-friendly digital products, including social media platforms and admin panels.
